

JANUARY

NEW YEAR, NEW LAWN ATTITUDE

- Consider dormant seeding your lawn. This seeding method can be quite successful as the freeze and thaw cycles of winter pull seeds into the soil, increasing spring germination.
- Be a responsible dog owner and scoop the poop. Pet waste pathogens, like e-coli, end up in rivers and streams even during a January thaw.

**DID YOU
KNOW?**

When the ground does not freeze completely, grass continues to grow: even under a blanket of snow.
